

# Obstacles to democracy

Ignacio Ortiz, Jorge Figueroa, Maximiliano Castellanos

There are some obstacles that may prevent the "growth" of democracy, like:

# Ethnic Differences & Conflicts

- Differences between ethnic groups can create civil unrest.

# Ethnic Differences & Conflicts

Some people say that an authoritarian government is better than democracy in uniting countries that are ethnically divided.

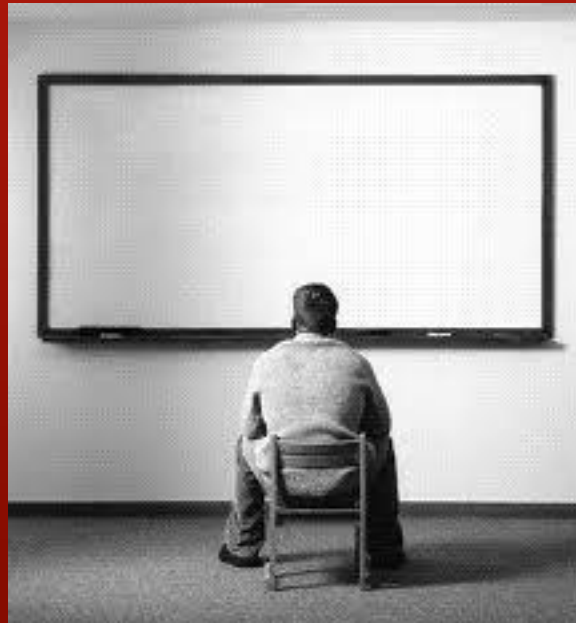

# A large gap between rich & poor

- Some believe that a large middle class is needed for a democracy to work.
- therefore, the rich few end up dominating government and using it for their own benefit

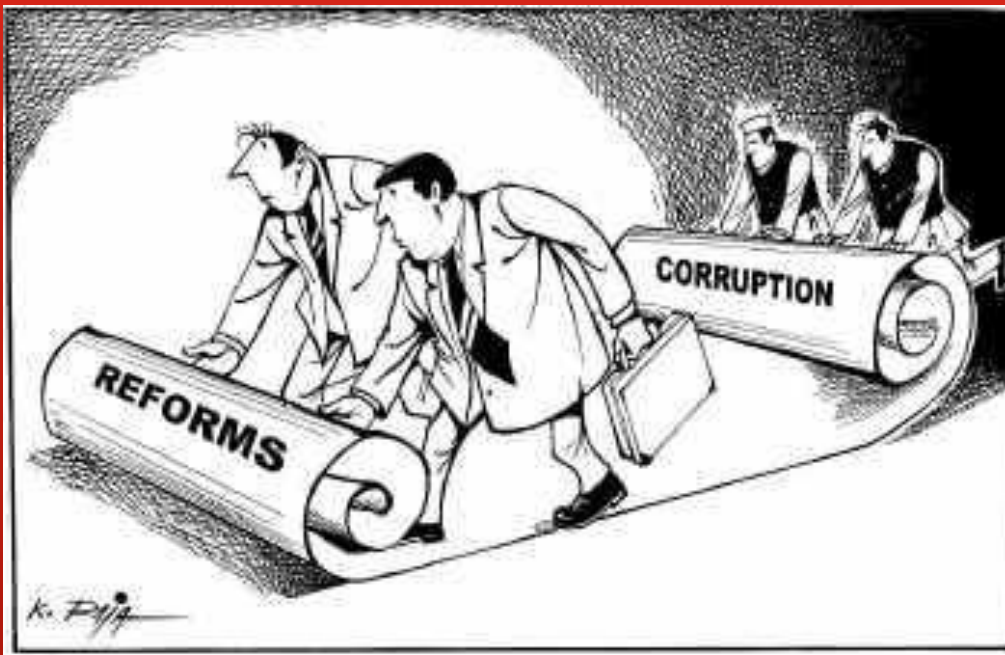

# A Low Literacy Rate

- people who cannot read are often excluded or have trouble participating in candidates literature, voting procedures, and reading and marking ballots

- Injustice, impunity, lawlessness and corruption especially, are obstacles to the effective practice of democracy.

- Causing those who do meet the standards will be affected negatively, and those who committed illegal acts quite favored end.
